

## What Parts Should You Take Along on Your Custom Run?

A well-organized Custom Combiner's crew is always prepared for the "ordinary emergencies"... prepared with an adequate stock of the most commonly needed parts and supplies.

**IMPORTANT LUBRICATION REMINDER: Be sure to lubricate your torque sensor with lithium based grease.**

We recommend Case IH 251H EP grease, 132 096 A1.

## Standardize on Genuine Case IH Combine Parts

Don't chance downtime! Be sure you standardize on Case IH parts, including Case IH roller chain, combine belts, and top-quality cutting parts. You win three ways with Case IH Remanufactured parts:

- You save time over rebuilding
- You get top Case IH quality
- You save hard cash—up to one third compared to new components
